**To update the situation**

Dear Customers,

As is known, the spread of Covid-19 unfortunately continues to advance and the future situation cannot be assessed at this time.

Because of our extensive measures to contain the risk of infection and the implementation of the recommendations of the Robert Koch Institute, no Covid-19 case has occurred in our company to date.

Nevertheless, the number of employees who are missing due to childcare, classification as a risk patient or other diseases poses great challenges for us to cover the individual shifts.

In order to intercept this, set-up times when changing types and changing sealing types must be avoided as far as possible. This applies to decor-specific small quantities of less than 500,000 pieces, as well as the use of special sealing material.

The use of crown in a neutral version with a standard seal guarantees a higher security of supply. A change from small cardboard to large containers is an additional relief for understaffed layers.

We may contact you in these two points in the next few days.

The supply of raw materials is still secured, but we assume that the need for closures will increase in the next few weeks. Therefore, please plan your dispositions in good time and in the long term.

If we can implement this together, we will be able to ensure continued reliable delivery. If there are nevertheless postponements, we will inform you accordingly.

Your Management
